Things are heating up again!

Summer is around the corner and we can't wait! Whether your team is WFH, in person, or following a hybrid office approach, summertime brings a whole new set of opportunities to boost company culture and employee morale.

We've designed this guide to help you make the most of summertime in your office! Think of it as your little book of secrets that will make this summer the best it can be.

Ready to dive in? Let's go!

While the days of endless summer breaks are long gone, offering special summer benefits to employees is a tradition we can still get behind! Here are a few of the most popular benefits to help your team make the most of the summer months:

Flexible PTO

Encourage people to take vacations. Flexible PTO policies take the stress out of trip planning, and let team members maximize time with family.

WFAnywhere Policy

With virtual commuting, it's possible to connect anywhere there's a WIFI signal. Try to be flexible with meeting times so people can work while they're traveling,

Wellness Perks

During the summer months some employers offer extra wellness perks like fitness stipends, subsidized gym memberships. For virtual offices, organize online fitness classes.

Summer Friday Half Days

Summer Fridays are one of the most treasured traditions of the summer months. Give employees the option of leaving early on Fridays to get ahead of weekend plans.

Pet Days

Pet days are a ton of fun if you're in the office, can still be a blast if people are virtually connecting. If you're WFH, take an afternoon to share everyone's pets on camera!

Education Programs

Supporting employee growth means giving them the resources and space they need to develop their knowledge base. Summer is a great time to offer education stipends and time off.
